## Section VII.—Retail Price Index-Numbers—Food, Groceries, Housing, etc.

Note.—Commencing with the first quarter of the Year 1925 the basis of computation for housing accommodation has been altered. Previously, the weighted average rent of all houses has been taken for the rent constituent. In the tables on this and the two following pages the weighted average rent of 4 and 5 roomed houses only has been taken. For comparative purposes index-numbers have been computed on the same basis for the years 1911, 1921, 1922, 1923 and 1924. The table on page 72 has been prepared for the use of the Commonwealth Court of Conciliation and Arbitration, and is based upon the weighted average rental of all houses in continuation of the series used by the Court for quarterly adjustment of wages.

### Retail Price Index-Numbers,\*—Capital Cities, 1911 to 1925.

Base in each Section :—Weighted Average of Six Capital Cities in 1911=1,000.

NOTE.—The index-numbers given in the separate parts of the table cannot be compared with each other in order to show the relative cost of (say) housing, and food and groceries, since the weighted average cost for the six cities taken together in 1911 in each group or combination is made equal to 1,000.

Note.—This table is prepared for the Commonwealth Court of Conciliation and Arbitration on a different basis from those given on the three preceding pages. As indicated by the heading in the table the rent constituent is based upon the weighted average of all houses. It is comparable with those published in issues of the Quarterly Summary previous to No. 99, but not directly comparable with those on pages 69 to 71, of this issue owing to the difference in the basis of housing accommodation.
